User portal enables initiating connections with monitored servers available to the logged in user.

The system also enables viewing the password to selected accounts and browsing passwords history to accounts managed by FUDO's password vault module.

Logging into the User Portal

Note: User Portal is compatible with the following web browsers:

- Google Chrome, Mozilla Firefox, Internet Explorer for Microsoft Windows.
- Google Chrome, Mozilla Firefox for Ubuntu.
- Google Chrome, Mozilla Firefox, Safari dla systemu operacyjnego Mac OS X.
- 1. Open web browser and direct it to the IP address of the User Portal.

Note: You can obtain the IP address from your system administrator.

- 2. Accept the security alert exception to display the login page.
- 3. Enter the username, password and click LOGIN.

Requesting access to safe

Note:

- Using this feature requires ServiceNow ticketing system.
- Usernames on Wheel Fudo PAM and *ServiceNow* must be the same to ensure correct requests processing.

To request access to safe, proceed as follows.

- 1. Log in to User Portal.
- 2. Find desired safe and click \square .

Fudo								admin 🗸
ACCOUNTS								
- AUTHENTICATION	<i>∎</i> 1	IST OF A	CCOUN	TS				
		NAME	TYPE	SERVER NAME	LISTENER	HOST	PROTOCOL	SAFE
